NEED A MORE PRECISE FIT?

## **REQUEST CUSTOM TRAYS**

With our low-cost tooling program, you can have a custom tray manufactured to your specifications. **Page 4**

PURCHASE WITH CONFIDENCE!

## **READY-MADE SAMPLES**

Want to confirm quality and fit? Let us know which part numbers, and we'll send two samples with one corresponding lid, free of charge.

**Page 5**

# Ready-Made is a licensed and certified thermoform plastic tray manufacturer offering products and services to both businesses and the public.

**Businesses in the medical industry as well as the mechanical, aerospace, and food and beverage sectors count on us for high quality shipping trays.**

Whether you're shipping small, low-tolerance, or complex components, we've got what you need to ensure your parts make it to their destination safely.

Since 1990, Ready-Made has been providing businesses and individuals with high-precision plastic trays, personalized service, and excellent customer support. We always strive to stock the most popular trays that business owners, distributors, and individuals are looking for at great low prices!

The High Impact Polystyrene (HIPS) multipurpose plastic trays we keep in stock cover a variety of convenient styles and sizes, including models with round, square, and rectangular pockets. We also have a robust CNC tooling shop running and ready to craft custom fixtures that fit the specific needs of each client.

## TURNAROUND TIME

At Ready-Made, we know that getting what you need quickly to keep your business running smoothly is a priority.

**That's why we're committed to:**

**Meeting and exceeding our customers' and suppliers' needs**

**Providing excellent and consistent customer support**

**Expanding to provide more products and services**

**Maintaining inventory levels that ensure your satisfaction**

From custom orders to in-stock trays, all Ready-Made trays are made from sustainable materials sourced in the continental United States. We take great pride in sourcing and manufacturing our thermoformed trays in Meridian, Idaho, USA.

# READY-MADE'S CNC SHOP IS ALWAYS READY

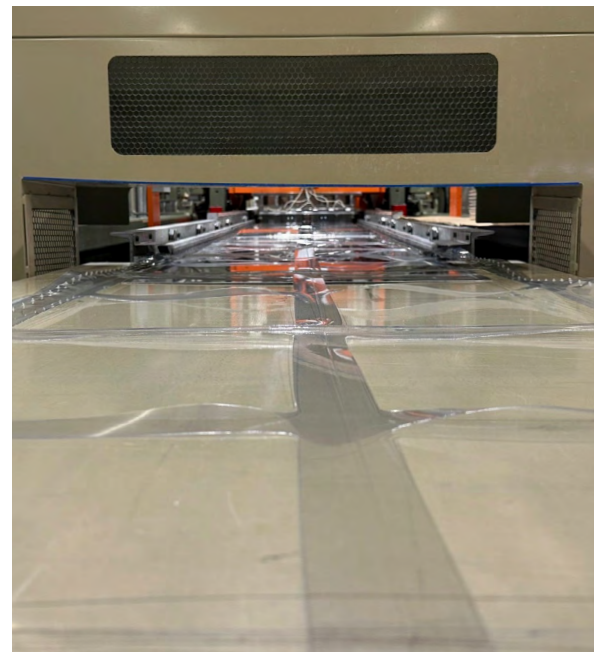

**ARE YOU A  
CANDIDATE  
FOR A CUSTOM  
READY-MADE  
TRAY?**

Even though Ready-Made manufactures nearly 150 different stock thermoformed plastic trays with round pockets, square pockets, and rectangular pockets, sometimes you need something special for a particular application in the medical, aerospace, or mechanical parts manufacturing industries. While our breadth of stock trays serves many standard use cases, customers find that a customized tray helps ensure that valuable, sometimes delicate, products arrive safely to their final destinations, whether a medical or mechanical part or even a food or beverage product.

Ready-Made's CNC shop is always ready to custom craft Ready-Made Plastic Trays to meet your exact needs. These custom plastic trays can be created in any color to support your branding or overall package. Customize your pocket dimensions up to a maximum depth of 2". We offer three different material thicknesses: 0.03, 0.05, and 0.06.

You can also choose between four different tray sizes for your custom tray packaging order:

- 10-5/8 x 10-5/8"
- 11 x 7-1/2"
- 14 x 7-1/4"
- 20 x 10-1/2"

# Request a Ready-Made Sample

Visit our website and fill out the form to let us know what part numbers you're interested in, where to ship them, and the dimensions of your parts. We'll ship your free sample right away!

## WHAT YOU'LL GET

Inside your free sample, you'll receive two pieces of the requested part number(s) and one corresponding lid. Free ground shipping is included! No need to return them – they're yours.

### CAN I GET MULTIPLE PART NUMBERS?

Don't hesitate to request additional part numbers if you're unsure of your needs. Due to the custom nature of our products, we do not accept returns or exchanges on full orders – but we want you to be confident in your purchase! That's why we offer samples for free.

### WHAT IF I NEED MY SAMPLE QUICKLY?

Emergencies happen! We can expedite your shipping for a small cost.

# CUSTOMIZE YOUR PLASTIC PACKAGING MATERIALS

## WHY SELECT CUSTOM PLASTIC TRAY MATERIALS?

### ESD PREVENTION + ANTI STATIC MATERIAL

Electrostatic discharges can damage semiconductors or other sensitive components.

### CHEMICAL RESISTANT MATERIALS

For trays that withstand corrosive materials, oils, grease, solvents, and other chemicals.

### HEAT & COLD RESISTANCE

Extreme shipping temperatures or hot/cold factory environments should not impact durability.

### UV RESISTANCE

For trays that will face extended sun/UV exposure while shielding sensitive components.

### FOOD + MEDICAL GRADE TRAYS

When plastic materials must pass strict industry standards for cleanliness and safety.

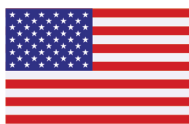

## THESE THERMOFORMING PLASTIC MATERIALS GET THE JOB DONE GET THE JOB DONE

Our stock trays primarily use High Impact Polystyrene (HIPS) and Polyethylene Terephthalate (PET), which are versatile and strong. However, we have a wide variety of materials available for custom tray production.

The Ready-Made team is always ready to source the exact plastic tray material you need, based on the intended application. Don't hesitate to reach out for custom tray projects and ask questions for an informed material decision. We handle all custom order requests promptly. Please note that less common custom materials requests may require a minimum order quantity.

## Here's a quick look at the qualities of the most frequently considered custom thermoforming plastic materials:

**MADE IN THE USA**

All of our trays are 100% made in the USA and backed by exceptional customer service. You can count on quality and speed with domestic production. We also prioritize the sustainability of our trays, which are 100% recyclable.

PLASTIC TRAY MATERIAL	DESCRIPTION	APPLICATIONS
<b>PET</b>	Polyethylene Terephthalate (PET), a form of polyester, is a lightweight option that's widely used for plastic bottles and packaging.	Most general-use tray applications, lightweight trays, high impact strength trays, lids
<b>PETG</b>	Polyethylene Terephthalate Glycol (PETG) is transparent, flexible, and chemically stable. It's one of the most commonly recycled plastics.	Most general-use tray applications, lightweight trays, high impact strength trays, lids,
<b>PETG Anti-Static</b>	This form of PETG is treated to reduce static buildup for safer transport of sensitive devices.	ESD component trays for electronics, chips, circuit boards, does not slough conductive particles
<b>HIPS (also called "Styrene")</b>	High Impact Polystyrene (HIPS) is inexpensive, lightweight, and strong with excellent durability and forming properties.	Stock plastic shipping trays, medical trays, automotive trays, food and beverage trays, high impact strength trays
<b>Conductive Styrene</b>	Black carbon-loaded styrene plastic easily dissipates a static charge for safe transport of ESD-sensitive devices.	ESD component trays for electronics, chips, circuit boards, sloughs carbon particles
<b>HDPE</b>	High Density Polyethylene (HDPE) is a chemical resistant material that resists most solvents, is durable, and is fairly rigid.	Food packaging, trays exposed to chemicals, trays for prolonged storage
<b>HDPE Blue Anti-Static</b>	HDPE Blue anti static shipping trays don't hold a charge for long and are safe for transporting ESD-sensitive devices.	ESD component trays for electronics, chips, circuit boards, does not slough conductive particles
<b>HDPE Black Conductive</b>	Conductive plastic materials like this HDPE are black because they're carbon-loaded. It will not create ESD while grounded.	ESD component trays for electronics, chips, circuit boards, sloughs carbon particles
<b>Conductive ABS</b>	Combo of ABS and PVC that's electrically conductive for static protection, strength, and dimensional stability.	ESD component trays for electronics, chips, circuit boards, sloughs carbon particles
<b>ABS</b>	Acrylonitrile Butadiene Styrene (ABS) is stiff, lightweight, opaque, and typically exhibits high heat resistance and cold resistance (-4°F to 176°F, or -20°C to 80° C).	Heat resistance, cold resistance, flame-retardant trays, high impact strength applications
<b>PP</b>	Polypropylene (PP) is chemical-resistant and rigid with good impact strength. It also performs well at higher temperatures.	Chemical resistance, heat resistance, high impact strength applications
<b>PVC</b>	Polyvinyl Chloride (PVC) is a popular option for resistance to grease, heat, impact, and extreme environments,	Chemical resistance, heat resistance, high impact strength applications, insulating applications
<b>Anti-Static PVC</b>	Unlike conductive trays, the anti-static PVC material can be made clear or colored for safe and convenient shipping of electronic components and general small parts.	ESD component trays for electronics, chips, circuit boards, does not slough conductive particles
<b>PC</b>	Polycarbonate (PC) is highly rigid, transparent, and customizable to different colors, with some heat resistance but low fatigue endurance.	Clear packaging, heat resistance, trays that roughly simulate glass with much less weight
<b>ESD Polycarbonate</b>	This treated PC plastic thermoforming material is used for anti-static ESD prevention with the rigid clarity of polycarbonate.	ESD component trays for electronics, chips, circuit boards, does not slough conductive particles

# A Sustainable Future, One Tray at a Time

At Ready-Made Plastic Trays, we produce responsibly-manufactured, recyclable trays. All of our development, production, and supply processes are based on sustainability principles that protect our planet and future.

## SUPPLIER SUSTAINABILITY

Our main supply of material come from a source that reports:

- 200 million+ lbs plastic recycled every year
- 375,000+ sq foot dedicated space for recycling
- 300,000 KWH renewable energy purchases per month

## DOMESTICALLY SOURCED MATERIALS

All of our materials are traceable back to the original manufacturer.

## OUR GREEN STORY CONTINUES WITH YOU

Working with Ready-Made is an investment in your reputation. Our custom trays are sustainable packaging solutions that reduce environmental impact without sacrificing performance or profitability.

Support your own environmental mission – and please your customers – with a plastic product that is part of the solution, not the problem.

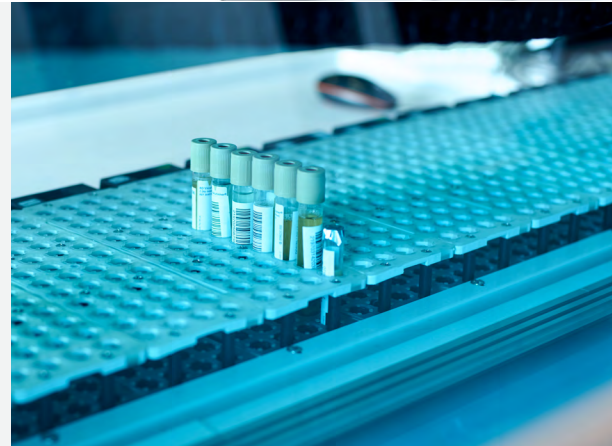

# INDUSTRIES WE SERVE

READY-MADE PLASTIC TRAYS SERVICES BUSINESSES IN THE MEDICAL, FOOD & BEVERAGE, AUTOMOTIVE, AND OTHER INDUSTRIES THAT SHIP HIGH-PRECISION PARTS.

## READY-MADE MEDICAL

The healthcare, medical devices, and pharmaceutical industries rely upon Ready-Made trays to safeguard many sterile products. Whether you're shipping delicate components, implants, instruments, pharmaceutical bottles, or other medical-related items, Ready-Made delivers a clean and reliable seal in lightweight clear or white plastic trays that ensure stable product orientation and are easy to check for cleanliness.

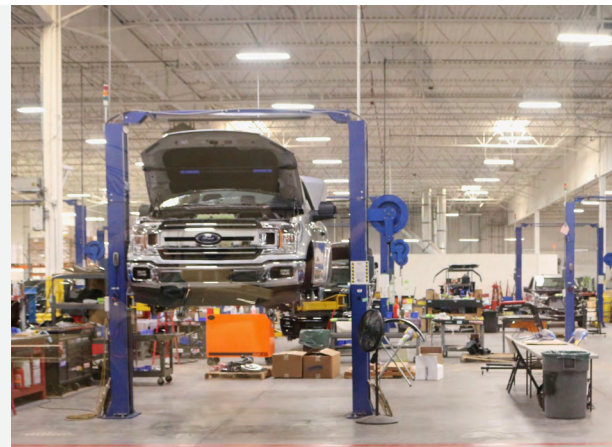

## READY-MADE FOOD & BEVERAGE

Businesses across the food and beverage sector count on Ready-Made trays to get products and components safely to their destinations without contamination or damage. All of our virgin trays are thermoformed from durable food-grade materials, and we're prepared to work closely with you on adhering to strict industry specifications and compliance needs.

## READY-MADE AUTOMOTIVE

The automotive industry ships numerous high-precision parts between manufacturers, suppliers, and OEMs that demand careful packaging. Ready-Made trays are an ideal solution for protecting sensitive components from harmful forces while preventing unnecessary rotations. A tray also keeps your components neatly organized for further assembly.

## READY-MADE MANUFACTURING

One of the most commonly used packaging and storage solutions in manufacturing, thermoformed trays are a reliable choice for efficient and secure packaging, organization, storage reduction, and transportation. Custom trays can add protection from damage, optimize storage with compartments, and are a sustainable solution for environmentally conscious organizations.

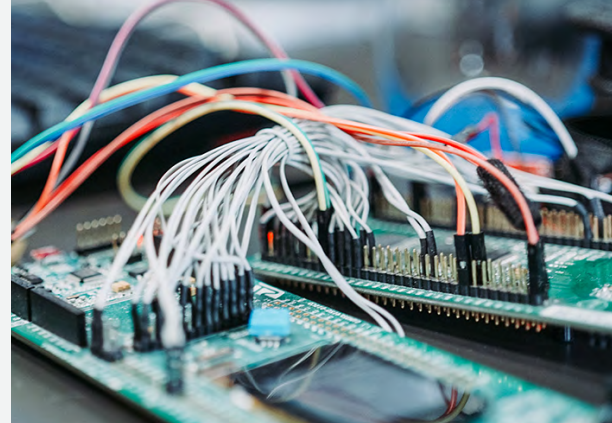

## READY-MADE AEROSPACE

A cost-effective and versatile solution for various applications in the aerospace industry, thermoformed plastic trays offer a piece of mind that can't be achieved with cardboard or other materials. Common uses include protective packaging used during shipping and storage for capacitors, electronic components, manufacturing component fasteners and even

## READY-MADE ELECTRONICS

An excellent solution for electronic component packaging and storage, thermoformed plastic trays offer protection and function. Customizable to fit various shapes and sizes, these trays provide superior protection during transportation and storage. With custom options for ESD control, they ensure the safety of sensitive components. Clear trays can allow for easy component identification without removal, increasing efficiency and decreasing the risk of damage during handling.

## READY-MADE DENTAL

Easily customizable, thermoformed trays allow dentists and dental laboratories to store and ship a variety of tools and instruments. Made from medical-grade plastics, Ready-Made trays are easy to clean, disinfect, and sterilize, ensuring a sterile environment. They also enable the efficient organization and easy retrieval of dental instruments, saving time during dental procedures.

## READY-MADE OPTICAL

Thermoformed plastic trays offer several advantages over other types of packaging materials when it comes to optical shipping and storage. Resistant to scratches, moisture, and impact, Ready-Made trays can be manufactured with anti-static properties to prevent electrostatic discharge, which can damage sensitive optical components. These include optical components, laboratory equipment, medical equipment, laboratory supplies, medical supplies, optical lenses, and more.

# MOST POPULAR STOCK STYLES

**Square Pocket**

**Round Pocket**

**Rectangular Pocket**

## STOCK PRODUCTS AVAILABLE ONLINE

### READY-MADE TO PURCHASE WITH EASE

Ordering Ready-Made Plastic Trays is fast, simple, and convenient. Our extensive range of in-stock products features a variety of pocket shapes and sizes, including lids! Visit [store.ready-made.com](https://store.ready-made.com) to view our full range of thermoformed trays available to ship in just a few clicks.

#### 1. FIND YOUR PRODUCT

Sort featured options by dimensions, material, color, and pocket type.

#### 2. PLACE YOUR ORDER

Online or via purchase order, we guarantee transparent pricing and easy ordering.

#### 3. RECEIVE YOUR DELIVERY

Quick to purchase, quick to ship! We believe in rapid production and no nonsense.

# RECTANGULAR POCKET TRAYS

**SKU: 3015-W**

## Rectangular Pocket Packaging Tray

**TRAY SIZE:**  
10-5/8" X 10-5/8"
